Study ID:IRB201500253 Date Approved: 7/25/2016 Expiration Date: 7/25/2019

UF IRB-01 Approved

UF | Center for Movement Disorders and Neurorestoration

WE NEED VOLUNTEERS with TICS!

ages 6-19

We need children and teenagers to volunteer their time for an important research study.

The UF Center for Movement Disorders & Neurorestoration is conducting a handwriting study to research handwriting patterns in patients with Tourette Syndrome or Tic Disorders. This can be completed during your routine clinical visit.

The study day would be 30 minutes and would include two simple handwriting assessments.
